

## WORK VESTS

Regatta work vests have been developed and produced at the request of the Norwegian Oil Directorate (OD). Basis: NS 9360: "Work flotation garments" and EN 393 – EN 395 – EN 396. The vests are used for work in exposed situations; decks, installations at sea, welding, maintenance and scaffolding work. Ref.: Phillips Petroleum, Shell, ELF, Maersk a.o.

- Antiflame outer fabric in orange safety colour
- Supersoft buoyancy foam of self extinguishing PVC with a closed cell structure
- Solid lifting straps on shoulders (2 x 1600 N) - not 403
- 6 reflectors and whistle
- 3 belts in front
- Suitable collar which protects the neck against cold wind and rain
- Comfortable fitness
- Aperture in the back for fitting of safety hook (all models.)
- Mod. 403 has an inflatable lung in addition to the buoyancy foam
